## ABOUT ME

Ahmad Dahlan University Bachelor of Information Systems graduate with an interest in user experience (UX) and user interface (UI) design. Experienced in designing various applications, including a thesis project in the form of a dysmenorrhea management application that produces user-friendly design solutions that have a positive impact on users. Highly motivated to keep learning and developing. I believe my design skills and understanding of technology can contribute to the development of innovative digital products.

## EDUCATION

### Ahmad Dahlan University (2019 - 2024)

(S1 - Information Systems) - (GPA: 3,64 | Cum Laude)

## EXPERIENCE

### Fresh Graduate Academy Digital Talent Scholarship

June - September 2023

#### UI/UX Designer

Learn the basics of user experience (UX) design. Conduct UX research. Create wireframes, low-fidelity prototypes, and high-fidelity prototypes of creatifashion apps.

### UI/UX Design Internship - SevenInc

March - June 2022

#### UI/UX Designer

Collaborated with a team of 4 people to design the BebasJualan.com application, with a division of tasks on mobile display, finance, admin, and website. Responsible for wireframing and prototyping BebasJualan.com mobile application.

### UI/UX Design Pre-Internship - Ahmad Dahlan University

Feb - March 2022

#### UI/UX Designer

Redesigned the banking app to improve user experience and interface. Redesigned the song streaming app, improving the layout and navigation for better accessibility. Created foundation components, including color palette, grid system, shadow effect, and typescale to create a consistent and intuitive interface.

### Himasi Internship - Ahmad Dahlan University

Feb - May 2021

#### Media Communication and Information Division

Responsible for graphic design for the UI/UX National Webinar event. Play an active role in designing reports and organizing the structure of the E-sport Tournament event. Manage the design of Himasi's Instagram feed.
